

Priestly Blessing

Music and English lyrics by Cantor Tifani Coyot and Mary Ekler Text: Liturgy

Vocals: Cantor Tifani Coyot, Danny Rubenstein, and Stephanie Kupfer

May God bless you, May God keep you in the shelter of this everlasting peace.

And may God's light shine upon you

May you always have compassion in your heart

From generation to generation, we are strengthened by the stories of our past

Still united on this journey we are guided by the wisdom of Torah.

Show me the way, teach me to say all of the words that will heal every heart

I wanna start giving my love. I need you to show me the way, teach me to say all of

the words that will heal every heart. I wanna start giving my love.
